LAWRANCE'S FLOWER SEED AND PLANT CATALOGUE

LAWRANCE'S GREENHOUSES
OGDENSBURG, N. Y.

Republican-Journal Print, Ogdensburg, N. Y.

GENERAL DIRECTIONS TO CUSTOMERS

ORDER EARLY.—All orders should be sent as early as possible, as they are filled in the order in which they are received. In our busy season it is sometimes impossible to fill orders on the same day as received; hence the advisability of ordering early.

SHIPMENTS.—All plants, shrubs, bulk seeds, fertilizers, etc., will be sent by express unless otherwise advised, but we assume no responsibility for stock shipped in any other way.

PAYMENTS.—From unknown correspondents, a remittance or satisfactory reference should accompany order. Orders can be sent C. O. D. if a partial payment on account is made to guarantee good faith.

ERRORS.—While we exercise great care in filling orders errors will sometimes occur. In that event please notify at once that we may make corrections.

GUARANTEE.—We use great care to have our Seeds true and reliable, but owing to many contingencies arising to prevent the best seed from always giving satisfactory results, such as sowing too deep, too shallow, in too wet or too dry soil, wet weather, frosts, damage by insects, as soon as or before the plants appear, etc. In common with other responsible Seed firms, we sell our goods subject to the following disclaimer, being that adopted by the American Seed Trade Association:

We give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any seeds, bulbs or plants we send out and will not be responsible in any way for the crop. If the purchaser does not accept the goods on these terms they are to be returned at once.

GREENHOUSES: 75 CANTON ST.

STORE: 53 FORD ST.

CUT FLOWERS AND FLORAL DESIGNS

We are prepared at all times to execute orders for Cut Flowers and Floral Designs for any occasion. Our extensive and modern greenhouses with proper equipment enable us to promptly fill orders in an approved manner. Flowers in any form are packed by us so they travel perfectly by express at any time. All orders for Cut Flowers are sent by express. We assume no responsibility when shipped in any other way. While we can fill orders on short notice it will be to your advantage to order early. All telegraph and telephone orders should be sent to our store, No. 53 Ford St., for prompt attention.

FLOWER SEEDS

We give special attention to our Flower Seeds and aim to handle only the best strains to be procured, both of home and foreign growth. We do not offer a long list of varieties, but only the best and most generally known, and those we know are best suited to the amateur. We offer no seeds of inferior quality, at cheap prices, nor do we give any premiums, preferring to give the value in the best seeds procurable at honest prices. Many of the varieties are of our own growing and most careful selection, while others are from specialists in this and foreign countries.

GLADIOLUS

The present popularity of the Gladiolus is sure to continue and increase and thousands of bulbs are now planted where dozens were used in the past. They are unquestionably the most attractive and useful of all summer flowering bulbs. As a flower for cutting during summer and autumn they cannot be excelled. For best results they should have a sunny situation and they are not particular as to soil provided it is well drained. The best time for planting is early in May and a succession of bloom may be had by planting at intervals of about two weeks up to the end of June. Wonderful improvements have been made in the past few years in size, color and beauty of these flowers and our list comprises only the best of the new and old sorts.

America. Unquestionably one of the finest varieties for cutting and bedding ever sent out. Color, a beautiful shade of soft shell pink. Robust straight stem and giant flowers of a delicate texture. 5c. each, 50c. doz.

Baron Hulot.

Augusta. A pure white flower, slightly pencilled in the throat; most all flowers open at one time. One of the most popular sorts. 5c. each, 50c. per dozen.

Blanche. One of the finest varieties of the giant type; flowers white, lightly marked with pale rose. 10 cts. each, \$1.00 per doz.

Baron Hulot. A rich royal violet blue; a good grower with well expanded flowers; very effective when cut and used with the white and yellow varieties. 10 cts. each, \$1.00 per doz.

Electra. A fine sort; soft red, extra large. 10c. each, \$1.00 per doz.

Glory of Holland. Pure white anthers of delicate lavender, flowers very large, first class in every way. 5 cts. each, 50 cts. per doz.

Halley. An early variety with large well expanded flowers of a lovely salmon pink, lower petals blotched yellow with salmon markings. 5 cts. each, 50 cts. per doz.

Independence. A brilliant rose-pink marked with white and maroon in the throat, strong straight spikes; a grand sort for cutting. 5 cts. each, 50 cts. per doz.

- Lily Lehman.** Beautiful ivory white faintly tinted pink, large frilled flowers, the best white for the amateur. 10 cts. each, \$1.00 per doz.
- Mrs. Francis King.** A striking shade of light scarlet or flame color. One of the most effective in the border and when cut; very large flowers. 5 cts. each, 50 cts. per doz.
- Niagara.** Delicate cream yellow, lightly marked and splashed with rosy carmine in the throat. Very large open flowers on tall straight stems. 10 cts. each, \$1.00 per doz.
- Panama.** An excellent variety on the order of America but with flowers of a somewhat deeper shade of pink. Considered by many as the finest variety in the whole list. 10 cts. each, \$1.00 per doz.
- Pink Perfection.** One of the finest of recent introductions. The color is a soft apple blossom pink with a chamois suffusion that is very attractive. 10 cts. each, \$1.00 per doz.

Pink Perfection.

Princesps. Immense wide open flowers of a rich dazzling scarlet marked with white on the lower portion which intensifies the brilliancy of the scarlet. 5 cts. each, 50 cts. per doz.

Ruffled Glory. The first of a new type of this great flower. Color, delicate cream pink, each lower petal having an attractive crimson stripe through the center. Each petal is ruffled and fluted. 10 cts. each, \$1.00 per doz.

Rochester White. A splendid new pure white variety without any trace of color. Even the pollen and anthers are pure white. The large broadly expanded flowers have nicely rounded petals well arranged on an ample spike three feet in length. 20 cts. each, \$2.00 per doz.

Sulphur King. Beautiful clear sulphur yellow and generally conceded to be the finest clear yellow ever introduced. It produces extra long spikes well filled with its attractive flowers of medium size. 10 cts. each, \$1.00 per doz.

Schwaben. A new imported variety of wonderful vigor and strong erect spikes with large well expanded flowers of a clear canary yellow color with a small blotch of garnet in the throat. 15 cts. each, \$1.50 per doz.

BULBS FOR FALL PLANTING.

We import large quantities of Tulips, Hyacinths, Crocus, Narcissus, &c., and can supply these in any quantity and of the best quality. Don't place your order for any of these until you get our prices. We can save you money. Price list out about August 1st.

VEGETABLE SEEDS

We give in the following a list of varieties that are unexcelled for general garden purposes. Most of them are well known standard varieties such as are used by the many market gardeners whom we supply and who are critical judges of the best varieties. We do not list any of the Novelties, which are usually the older varieties under a new name and at much higher prices. Our prices will be found low considering quality. We do not handle cheap seeds at any price.

Special prices will be given large planters or market gardeners using large quantities of seeds.

FREE BY MAIL—All seeds in packets, ounces and quarter pounds are sent postage paid; on larger quantities, add five cents per pound for first pound and one cent per pound for each additional pound or fraction of a pound.

ASPARAGUS.

Cannover's Colossal. The well-known standard variety. Pkt., 5 cts.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

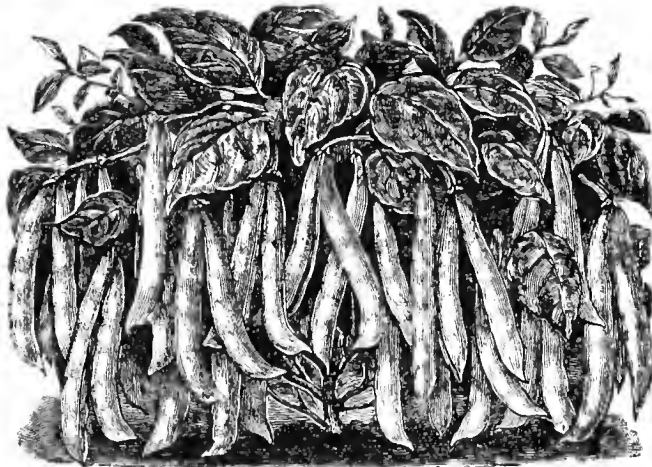

Columbian Mammoth White. New, producing large white stalks of the finest flavor. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

BEANS.

Improved Golden Wax. Rust proof, rich golden yellow pods, early and productive. Pkt., 5c.; pint, 20c.; qt., 35c.

Wardwell's Kidney Wax. Long flat yellow pods, tender and stringless. Pkt., 5c.; pint, 20c.; qt., 35c.

Stringless Green Pod. The best all around green pod bean, very early and productive, absolutely stringless. Pkt., 5c.; pint, 20c.; qt., 35c.

Improved Golden Wax Bean.

Henderson's Bush Lima. The best Bush Lima for this climate, early and productive. Pkt., 10c.; pint, 20c.; qt., 35c.

Seibert's Large Lima. The earliest pole Lima and the only one that can be depended on to produce a crop in this climate. Pkt., 10c.; pint, 20c.; qt., 35c.

BEETS.

Crimson Globe. Fine shape and smooth skin, sweet and tender. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Detroit Dark Red One of the best, tender and sweet, globe shaped and medium early. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Eclipse. Smooth and round, excellent quality, early. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Sugar Beet. Giant Half Sugar. Large size and rich in sugar, one of the best for stock feeding. Oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

Mangel Wurzel, Long Red. The largest and heaviest and the best for stock feeding. Oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 50c.

Crimson Globe.

CABBAGE.

Early Winningstadt. The old favorite with pointed heads, good for early or late. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

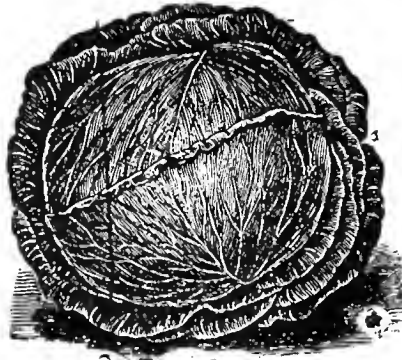

Early Jersey Wakefield.

Early Jersey Wakefield. The standard early variety, pointed heads of excellent quality. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

All Head Early. The earliest of all the large or drum-head Cabbage. Pkt. 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

Premium Flat Dutch. The standard winter drum-head variety, very large and solid. Pkt. 5c.; oz., 20c.; $\frac{1}{4}$ lb., 65c.

All Head Early.

Danish Ball-head. Medium sized round heads, very solid and best winter keeper. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 75c.

Autumn King. Extremely large, very solid and an excellent keeper. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 75c.

CARROT.

Danvers Half Long.

Danvers Half Long. The most productive variety, equally good for table use or stock feeding, large size and good quality. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Oxheart or Guerande. Short thick roots of excellent quality. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

CAULIFLOWER.

Early Snowball. The earliest and best. Under favorable conditions nearly every plant will produce a fine head. Pkt. 15c.; $\frac{1}{4}$ oz., 60c.; oz., \$2.00.

Large Late Algiers. A strong growing variety producing large white heads late in the fall. Pkt., 10c.; oz., 50c.

CELERY.

Golden Self Blanching. The leading sort in all high class markets, handsome golden color, very crisp and with rich nutty flavor. Pkt., 10c.; $\frac{1}{4}$ oz., 50c.

White Plume. The standard early variety, white leaves and stalks. Pkt., 5c.; oz., 15c.

Giant Pascal. Extra large, late and best for winter use. Pkt., 5c.; oz., 15c.

CORN.

White Cob Cory. The earliest, short plump ears with large white kernels of good quality. Pkt., 5c.; pint, 15c.; qt., 25c.; peck, \$2.00.

Early Crosby. Very productive, rich sugary flavor, medium early. Pkt., 5 cts.; pint, 15c.; qt., 25c.; peck, \$2.00.

Squantum, or Potter's Excelsior. Midseason variety. Fine large ears and deep grain, one of the sweetest varieties. Pkt., 5c.; pint, 15c.; qt., 25c.; peck, \$2.00.

Golden Bantam. Absolutely the sweetest and richest sweet corn grown; ears small, rich golden yellow in color and very tender and sweet; very early and productive. Pkt., 5c.; pint, 20c.; qt., 35c.; peck, \$3.00.

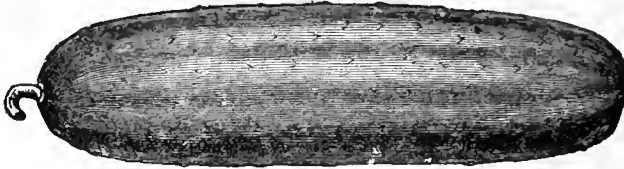

Stowell's Evergreen. The standard late variety, large ears of the best quality and flavor. Pkt., 5c.; pint, 15c.; qt., 25c.; peck, \$2.00.

CUCUMBER.

Early White Spine. The most popular variety for table or market; early, productive and of excellent flavor. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., 75c.

Chicago Pickling. The best variety for pickles; medium sized and very productive. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., 75c.

Davis' Perfect. One of the finest table varieties, very productive; fruits long, dark green in color and of the finest quality. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 35c.; lb., \$1.25.

**Extra Long Green.**

Extra Long Green. A grand variety for table or market use, large fruits 10 to 12 inches long and of excellent quality. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 35c.; lb., 90c.

EGG PLANT.

New York Improved. The leading market variety. Very large, productive and of good quality. Pkt. 10c.; oz., 35c.

**Big Boston.****LETTUCE.**

Big Boston. The most popular large heading variety; good for hot-bed or garden. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 35c.

Black Seeded Simpson. Large loose heads of tender golden yellow leaves. One of the best

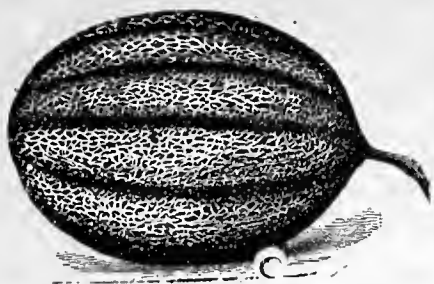

for forcing. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 35c.

Grand Rapids. An early loose heading variety with rich yellow leaves, finely curled; equally good for hot-bed or garden. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 45c.

Wonderful. One of the best for summer planting, large white heads, very tender and crisp. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 35c.

MUSK MELON.

Rocky Ford. The well-known variety which is served in its season at all high class hotels and restaurants. The melons are about 5 inches in diameter, very uniform in size and of the most delicious flavor, flesh light green and can be eaten right to the rind. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.

**Defender.**

green, remarkably thick, melting and of the most delicious flavor. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 50c.

Defender. Handsome regular shaped fruits of medium size, the flesh is salmon colored, firm and of fine flavor. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 35c.

Paul Rose. Very similar to Rocky Ford but with salmon colored flesh. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 35c.

Montreal Market. The largest of the Nutmeg varieties, flesh light

WATER MELON.

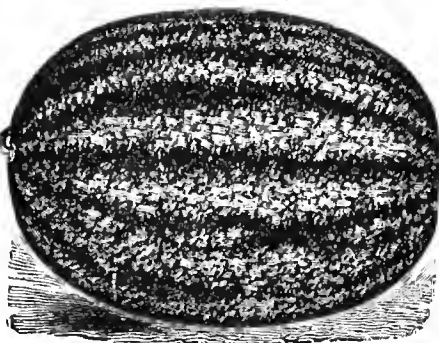

Cole's Early. The best and earliest variety for northern planting, fruits medium size, flesh red, melting and delicious flavor. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.

Phinney's Early. One of the best for home use. Very early and productive, flesh bright red, sweet and melting. Pkt 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.

Fordhook Early. The earliest of the large melons, flesh bright red, of fine flavor and very sweet. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.

Kleckley Sweet. A grand variety, unsurpassed for home use, flesh bright scarlet and very sweet.

This variety is so crisp and tender it will not stand shipping. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.

**Phinney's Early.**

ONION.

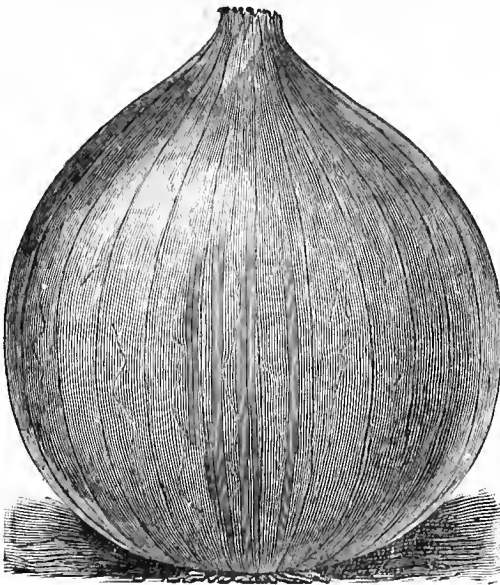

Australian Brown. Noted for its keeping qualities and peculiar color (brown), very productive and early. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.75.

Yellow Globe Danvers. The standard yellow variety; an excellent keeper and very productive. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 60c.; lb., \$2.00.

Red Wethersfield. The well-known large red variety, fine grained and a good keeper. Pkt, 5c; oz, 15c; $\frac{1}{4}$ lb., 60c.; lb., \$2.00.

Mammoth Prizetaker. A variety of immense size, pale yellow in color, mild flavor and a good keeper. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 60c.; lb., \$2.00.

White Portugal or Silverskin. A grand white variety, largely planted on account of its uniform size, earliness and mild and sweet flavor. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 75c.; lb., \$2.75.

Onion—White Globe.

PARSLEY.

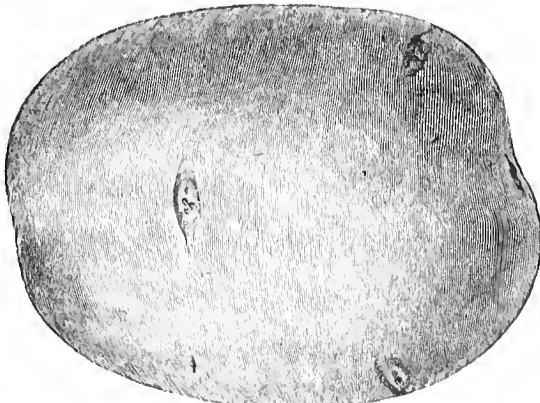

Moss Curled. A compact growing variety, leaves very curly and bright green. Pkt. 5c.; oz., 15c.

PARSNIP.

Hollow Crown. The best for general use; large smooth roots of uniform size. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

SEED POTATOES.

Irish Cobbler. The best early vari-

Irish Cobbler Potato.

White Globe. The best of all the white varieties, large globe-shaped, firm bulbs, of the best quality; a good keeper. Pkt. 5c.; oz., 25c.; $\frac{1}{4}$ lb., 80c.; lb., \$3.00.

ONION SETS.

These are small Onions and when planted early will produce green Onions or large bulbs much quicker and surer than from seed.

Yellow Sets, per pint 10c., qt., 20c.

White Sets, per pint 15c., qt., 25c.

If sent by mail, add 10c. per quart for postage.

As Sets are subject to market changes, bushel prices will be quoted on application.

Hollow Crown Parsnip.

ety, producing very few small or unmarketable potatoes; tubers are smooth with white skin and flesh; one of the best for table use and a grand keeper. Price on application.

Quick Crop. A grand early variety resembling Early Rose when at its best, a great cropper of large oblong potatoes of the best possible quality. Price on application.

Carman No. 3. A standard late variety resembling Rural New Yorker and Sir Walter Raleigh, but better than those from the fact that it seldom if ever grows with hollow hearts. Very handsome large white potatoes of the best quality. Price on application.

PUMPKIN.

Sugar or Pie. Medium sized, very fine grained and dry; the best for cooking. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

Mammoth or Field. Immense size, good quality, very productive. Pkt., 5c.; oz., 10c.; lb., 45c.

PEPPER.

Chinese Giant. The finest and largest variety of mild flavor; flesh thick and very sweet. The fruits are bright red when ripe and are freely produced. Pkt., 5c.; oz., 40c.

Bell or Bull Nose. A large early variety of mild flavor, the standard for baking and pickling. Pkt., 5c.; oz., 20c.

Long Red Cayenne. Long, bright red and full of fire. Pkt., 5c.; oz., 20c.

PEAS.

(Postage will be charged at the rate of 10c. per pint if Peas are to be sent by mail.)

Alaska. One of the earliest, growing about 18 inches high; large round pods well filled with Peas of the finest quality; seed blue. Pkt., 5c.; pint, 15c.; qt., 25c.; peck, \$1.50.

Nott's Excelsior. The best early dwarf variety, very productive, pods large and well filled with peas of unusually sweet flavor. Pkt., 5c.; pint, 15c.; qt., 25c.

Telephone. A strong growing variety with large pods filled with immense peas of the very best quality, Second early. Pkt., 5c.; pint, 15c.; qt., 25c.; peck, \$1.75.

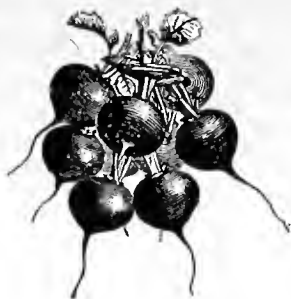

Peas—Alaska.

RADISH.

Crimson Giant. The best summer Radish, as it does not become pithy even when twice the size of the other varieties. Roots round, crisp and very tender. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 70c.

Early Scarlet Turnip. A quick growing turnip-shaped variety with small top, rich color, crisp and tender. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

Early Round Radish.

Early Scarlet Turnip White tipped. The same as the preceding but roots are tipped with white, very attractive. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

Scarlet Globe. A fine globe-shaped variety of superb quality, flesh white and tender. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

Early Round Red. Very early, skin bright red, flesh white, solid crisp and very mild. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

SALSIFY, or VEGETABLE OYSTER.

Sandwich Island. Roots three times the size of the older variety and of more agreeable flavor. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 35c.

SPINACH.

Long Standing. Stands a long time before running to seed, dark green. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.

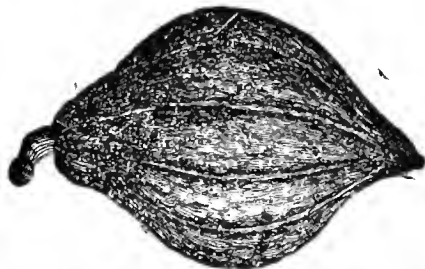

Round Thick Leaved. Large thick leaves somewhat crumpled, a fine sort. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

SQUASH.

White Bush Scallop. A summer variety with large thick waxy Squashes of grand flavor. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

Giant Summer Crook-neck. The well-known early bush variety, productive and of excellent quality. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

Boston Marrow. A winter variety, very productive, bright orange, flesh yellow and firm, fine for pies. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.

Hubbard Squash.

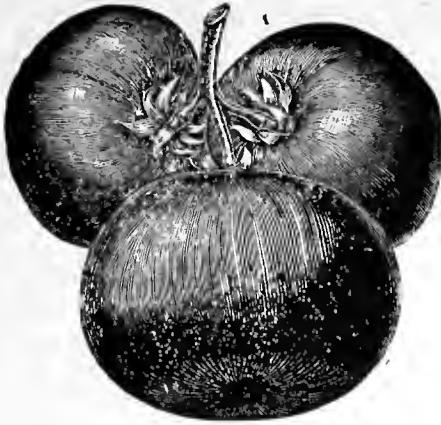

Delicious. Skin green, flesh orange, fine grained, sweet and dry, a good keeper. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., 85c.

Hubbard The well-known standard winter variety, very dry, sweet and fine flavored. Pkt. 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Golden Hubbard. A genuine Hubbard except in color which is reddish gold. Pkt. 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

TOMATO.

Chalk's Early Jewel. Very early, productive, smooth round and of best quality. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

**Sparks' Earliana.**

all the smooth varieties, medium size and good flavor. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

TURNIP.

Purple Top-Strap-leaved. An early white fleshed variety of mild flavor and rapid growth. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

Yellow Globe. A splendid sort for general crop, large size, good keeper and with yellow flesh. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

RUTA BAGA.

Long Island Improved. Very large with firm yellow flesh of good quality, equally good for table use or stock feeding. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

Monarch. Very large size with small neck and top, flesh solid; fine grained and of fine flavor. Pkt. 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 50c.

HERBS.

Sage. The most generally used of all Herbs for flavoring and dressing. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.

Summer Savory. The well-known Herb for seasoning. Pkt., 5c.; oz., 25c.

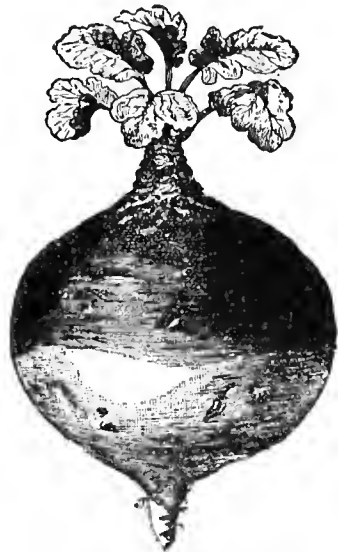

Dwarf Champion. Distinct in foliage and habit of growth, being compact and upright, fruits smooth, early and purplish red in color. Pkt. 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

Livingston's Beauty. Large and smooth, pinkish red, thick fleshed, one of the best. Pkt. 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

Matchless. An enormous cropper, fruits large, solid, perfectly smooth and fine quality. Pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.

Ponderosa. Extra large, solid and good flavor. Pkt. 5c.; oz., 35c.

Sparks' Earliana. The earliest of

**Ruta Baga—Long Island Improved.**

FLOWER SEEDS

Alyssum. (Sweet Alyssum.) Free blooming dwarf plants for beds, baskets, vases and edgings. Pkt. 5c.

LAWRENCE'S FINE ASTERS.

There is no flower more popular and easily grown than the Aster. They are known far and wide and can be found in the smallest and most restricted gardens as well as on the spacious grounds of the millionaire.

LATE BRANCHING ASTERS.

The Late Branching Aster is the king of all the Aster family. The plants are of strong growth, the stems long and stout and the large fluffy flowers are 4 to 5 inches in diameter and resemble the large Japanese Chrysanthemums. They are exceptionally good for cutting and are by far the most satisfactory Aster grown. They come into bloom somewhat later than the ordinary varieties, but can be brought into bloom early by sowing the seed in the house in March or April.

10 cts. per packet. One packet of each of the six varieties, 50 cts.

White Branching,

Purple Branching,

Pink Branching,

Crimson Branching,

Lavender Branching,

Mixed Branching.

EARLY BRANCHING ASTER.

The plants of the Early Branching Aster are of the same strong growth and constitution as the popular Late Branching but come into bloom ten days to two weeks earlier. The branches are few and free of all side growth which throws all of the strength of the plant into the development of extra large perfectly formed flowers on long stems, making them exceptionally desirable for cutting or exhibition purposes.

Early White Branching,

Early Pink Branching,

Early Mixed Branching.

10 cts. per packet. One packet each of the three varieties, 25 cts.

NEW MIKADO ASTERS.

A new variety of Aster belonging to the Comet type. The large staggly flowers are made up of petals that are curled and twisted in such irregular form as to give it that fluffy effect so much admired. The plants are unusually vigorous, producing a dozen or more long strong stems, each crowded with flowers from four to six inches in diameter. In season it is about two weeks earlier than the Late Branching variety.

Mikado Pink "Rochester." Rich lavender pink.

Mikado Lavender. A clear light lavender.

Mikado White. Large pure white.

10 cts. per packet. One packet each of the three varieties, 25 cts.

KING ASTERS.

A magnificent class of Aster differing from all others in the character of the flowers. The blooms are of large size and great substance and are made up of long narrow petals that are folded lengthwise, giving it a quilled appearance. The plants are large and the stems are exceptionally long and strong. A valuable characteristic of this variety is the great keeping quality of the blooms when cut, excelling every other class of Aster in this respect.

Violet King,

Pink King,

White King.

10 cts. per packet. One packet each of the three varieties, 25 cts.

Aster—Mikado Pink Rochester.

DAYBREAK ASTER.

An early or mid-season variety of medium height, distinguished for its profusion of bloom, delicacy of color and the extreme doubleness of the flowers. The plants are strong and rugged and produce quantities of flowers so double as to be veritable balls of bloom. The color is a delicate sea shell pink.

10 cts. per packet.

PURITY ASTER.

An exact duplicate of Daybreak except in color. The plants are covered with great white balls of bloom.

10 cts. per packet.

LAWRENCE'S PREMIER MIXED ASTER.

This grand mixture comprises a collection of early, mid-season and late varieties distinguished by their delicacy and variety of coloring, freedom of bloom, and vigorous growth. We are improving this mixture from year to year until we now have without question the best strain of Mixed Aster on the market today. The colors are well proportioned, comprising a good percentage of white and pink shades and smaller amount of purple and crimson shades, but represents almost all types of Asters and especially such as are of most value for cutting.

10 cts. per packet. Three packets for 25 cts.

ASTER PLANTS.

For those who do not wish to grow their own plants but who wish to be certain of having Asters that are worth while, we offer strong plants that have been well hardened off, ready for planting out. In any of the above varieties at 25 cts. per doz. If sent by mail, 30 cts. per doz. postpaid.

Plants ready after May 20th.

ANTIRRHINUM or SNAPDRAGON.

A fine old-fashioned plant which has again become popular. The recent improvements which have been made in size of flower, purity and delicacy of color and prolific blooming qualities, has placed it in the front rank as a garden flower. The plants grow vigorously, producing long spikes of flowers of various colors which are of exceptional value for cutting. If seed is sown in early spring the plants will commence blooming in early summer and continue until heavy frosts.

Fine Mixed, per packet 5 cts.
Pure White, per packet 10 cts.
Yellow, per packet 10 cts.
Rich Pink, per packet 10 cts.
Crimson, per packet 10 cts.

Balsam. An old garden favorite covered all summer with a profusion of double rose shaped flowers of all colors. Pkt. 5 cts.

Balsam

Calliopsis. Beautiful free blooming annuals with flowers in shades of yellow and brown. Pkt. 5c.

Candytuft. Popular favorites, flowering profusely without much care. Pkt. 5c.

Centaurea or Bachelor's Button. Also called Blue Bottle and Cornflower. One of the oldest and best known garden plants of the easiest culture. Lovely shades of blue, rose, purple and white. Pkt. 5c.

Cosmos. New Early Blooming. These are of easy culture and for late summer and fall blooming have no equal. The plants are tall and strong, growing with beautiful fern-like foliage and the flowers are of various shades from pure white to crimson. Pkt. 5c.

Dianthus or Pinks. These are among the most brilliant of our garden flowers and are of the easiest culture. The blooms resemble Carnations and are of rich and various shades and colors from white to crimson and purple and many shades and combinations of these colors.

Calliopsis.

Single Pinks, pkt. 5c.

Double Pinks, pkt. 5c.

Double English Daisy. An old fashioned hardy garden plant, blooming from early spring until well in the summer. The seed should be sown early or if

Double English Daisy.

sown in August and transplanted to permanent position in September they will give best satisfaction. Per pkt. 10 cts.

Forget-Me-Not. Charming little plants with small star-like flowers of a delicate shade of blue. The plants prefer a moist situation. Pkt. 5cts.

Gaillardia. Fine bedding plants, valuable for cut flowers. The flowers are very double, of various and pleasing colors, and freely produced on long stems. Pkt. 5cts.

Hollyhock. Too well known to need description. Our seed is from the finest and most double varieties.

Hollyhock.

Larkspur. Well-known hardy annuals of the easiest culture, free bloomers and produce an abundance of large spikes of flowers in shades of pink, blue and violet, fine for cutting. Pkt. 5c.

Marvel of Peru or Four O'Clocks. Well known, showy old garden plants, very free blooming and succeeding in any situation. Pkt. 5c.

Marigolds. Easily grown and useful garden plants. The African are tall growing and most striking in large beds while the French are dwarf and best adapted to small beds or as a foreground to taller plants.

Double African, pkt. 5 cts.

Double French, pkt. 5 cts.

Mignonette. No garden is complete without the Mignonette on account of its delicate fragrance.

Large Flowering Variety, pkt. 5c.

Mammoth Flowering Variety, pkt. 10c

Morning Glory. The popular and pretty old-fashioned climber of many colors and still in the lead of all quick growing vines. Pkt. 5c.

Morning Glory. Imperial Japanese. Much stronger in growth than the older variety, and with immense flowers of the most gorgeous colorings almost impossible to describe. Pkt. 10c.

Mignonette.

PANSY—Giant Exhibition.

cluding the rare and delicate rose and pink shadings, the rich bronze and copper colors, deep shining black, brilliant reds, purples, yellows and many combinations and shadings of these colors. We have been fortunate in being able to greatly improve this strain the past season by adding new German strains which were a revelation to all who saw them. Pkt. 15c. Two pkts. for 25c.

Large Flowering Mixed. A fine strain of large size and perfectly formed flowers of rich and varied colors and shades, equal to if not superior to most of the higher priced strains offered by other dealers. Pkt. 10c. Three pkts. for 25c.

Mixed Bedding. A fine strain for bedding purposes. The plants are of even, vigorous growth, and the flowers of large size and good substance; all colors. Pkt. 5c.

Petunia. Few plants equal this for garden decoration, they are early and very free blooming and continue a mass of bloom all through the season; the flowers are of large size and brilliant colors. Pkt. 5c.

Phlox Drummondii. One of our best annuals. There is no plant which can compare with it in brilliancy of color, freedom of growth and duration of bloom, making it of exceptional value for bedding or massing. We have a very fine strain in separate colors, white, crimson or mixed. 5 cts. per pkt.

LAWRENCE'S FINE NASTURTIUMS.

One of the best of all our garden annuals, succeeding with all who have a sunny location and any kind of soil except low and wet. The mixture we offer is composed of the finest new large flowered varieties in the proper proportion of colors, embracing all the shades of red and yellow, pink, chocolate, rose, striped, blotched, etc.; in size the flowers are large and usually borne on long stems

Tall or Climbing, pkt. 5c.

Dwarf or Tom Thumb, pkt. 5c.

PANSIES.

Giant Exhibition. The flowers of this strain are of immense size and perfect form, and contain a wide range of handsome and striking colors, in-

**Shirley Poppy.**

a Paeony; the colors are rich and striking. Pkt. 5c.

Ricinus. (Castor Oil Bean.) Highly ornamental plants of stately growth and handsome foliage, attaining a height of from 6 to 10 feet. Mixed varieties. Pkt. 5c.

**Salpiglossis.**

Salpiglossis. A beautiful and free blooming plant with handsome veined and tinted funnel-shaped flowers. Pkt. 5 cts.

Salvia. (Flowering Sage.) A very bright and showy bedding plant of rather strong growth, bearing long spikes of brilliant scarlet flowers in great profusion in late summer and fall. The seed should be sown in the house or hot-beds as early as possible and the young plants planted out when the weather becomes settled and warm. Pkt. 10 cts.

Scabiosa. (Mourning Bride.) One of the prettiest of our annual plants, producing an abundance of richly colored flowers on long stems. A fine flower for bouquets, etc. Pkt. 5c.

Stocks. Large Flowering Ten Weeks. One of the best known and most popular plants for the garden or greenhouse. The flowers are of a distinct and pleasing fragrance, large, double and borne on handsome spikes. All colors mixed, pkt. 10c.

Star Phlox. A unique variety with flowers having long pointed petals, giving the flower a star-like appearance. The flowers come in all the colors of the Phlox family, but the beauty of this variety, aside from the shape of the flowers, is that most all of the flowers have a border of white, giving them a rich and dainty appearance. Pkt. 5 cts.

POPPIES.

Shirley. These beautiful Poppies are very free flowering and produce beautiful satin-like flowers in handsome colors from pale shell pink to deep crimson, some delicately edged and fringed. Pkt. 5c.

Paeony-flowered. The flowers of these grow to an enormous size from 6 to 7 inches in diameter and as double as

Sweet William An attractive and free blooming old-fashioned plant of rich and varied colors, perfectly hardy. Pkt. 5c.

LAWRENCE'S TWELVE BEST ORCHID-FLOWERING OR SPENCER SWEET PEAS.

The character of these varieties is entirely distinct from the Standard or Grandiflora varieties, being of stronger growth and producing much larger flowers; a distinguishing feature of the type is, that the flowers are beautifully waved and fluted, giving them a very graceful and pleasing effect. Practically all the whole range of standard varieties have now been duplicated in the Spencer type, but after careful trials we have selected the following list as embracing the cream of the Spencer or Orchid-flowered Sweet Peas.

Blanche Ferry Spencer. Similar in color to the old favorite Blanche Ferry but of true giant Spencer type; the standard is bright rose and the wings tinted or bluish white.

Countess Spencer. The original or parent from which the entire Spencer type has sprung. Soft rose pink which deepens at the edges, the large flowers are usually borne three and four on a stem.

Dainty Spencer. A beautiful pink edged variety; the ground color is pure white with a distinct margin of rose pink; the general effect is light and dainty.

Elfrida Pearson. Flowers of large size, great substance and excellent keeping qualities when cut. The flowers are usually borne in fours on long stout stems; the color is a lovely pink; the buds and flowers being tinted with salmon pink.

Florence Nightengale. The largest and best lavender Spencer. The standard is bold, beautifully waved and of large size, usually measuring two inches or more across; the wings are large, well spread and of the same rich clear lavender as the standards. The vines are very strong growing and flower most profusely.

Illuminator. It is almost impossible to describe the beauty and exquisite coloring of this new variety. It is distinct from all other varieties and might be described as a rich, glowing cerise-salmon, faintly suffused with orange. The flowers are uniformly of large size, great substance and well placed on long stout stems and usually come four to the stem.

King Edward Spencer. A beautiful variety of the true Spencer type with exceedingly large flowers of a rich deep carmine-scarlet color.

King White. The grand flowers are borne almost invariably in fours upon stout stems of great length. The standards are widely expanded and nicely waved, while the wings also waved and fluted are beautifully placed. The glistening purity of the whiteness and the perfect finish of the flower puts this variety in a class by itself.

Margaret Atlee. A charming novelty of practically a new shade of pink; the lovely flowers of the true Spencer type are a rich glowing pink on a cream ground faintly tinged with salmon in the standards while the wings are a pleasing shade of pinkish rose and salmon. The flowers are of extraordinary size, often measuring two and a half inches across the standard, beautifully waved and freely produced, usually in fours on long stiff stems.

Mrs. Hugh Dickson. One of the most charming varieties yet produced. The coloring is a rich pinkish apricot on a cream ground, shading lighter

toward the center of the flower. The vines are of vigorous growth, begin blooming early and nearly always produce four to the stem.

Vermillion Brilliant. The most brilliant scarlet Spencer variety yet produced. The vines are strong, short jointed and very free blooming. The flowers are of perfect form, the standard being bold and erect, well waved and fluted while the wings are well placed and nicely waved. The whole flower is the same shade of intense rich scarlet throughout, and unlike most varieties of the color is entirely sunproof, showing no signs of burning in the hottest weather.

White Spencer. The first white in the Spencer type and still one of the best. A pure wavy white of the largest size and of splendid substance.

PRICE: Any of the above varieties, 10 cts. per packet.

The collection of 12 varieties and one packet of Lawbrance's Fine Mixed Spencers for \$1.00.

LAWBRANCE'S FINE MIXED SPENCERS.

A mixture of all the above varieties and many others, including many recent novelties. To those not having the space to devote to the separate colors, this mixture will be found of exceptional value, containing as it does all the colors of the type.

Price: 10 cts. per packet, 25 cts. per oz.

TWELVE BEST STANDARD OR GRANDIFLORA SWEET PEAS.

This collection is made up of extra selected varieties which besides the endorsements of leading Sweet Pea specialists we have found by our own trials to possess all the qualities which go to make up the ideal of this type of Sweet Peas.

Lady Grisel Hamilton. A grand pale lavender.

Miss Willmot. Rich orange pink shaded rose; has no superior in color.

Mrs. Walter Wright. An exquisite shade of mauve.

Nora Unwin. Aside from the Spencer varieties, this is the finest pure white in cultivation.

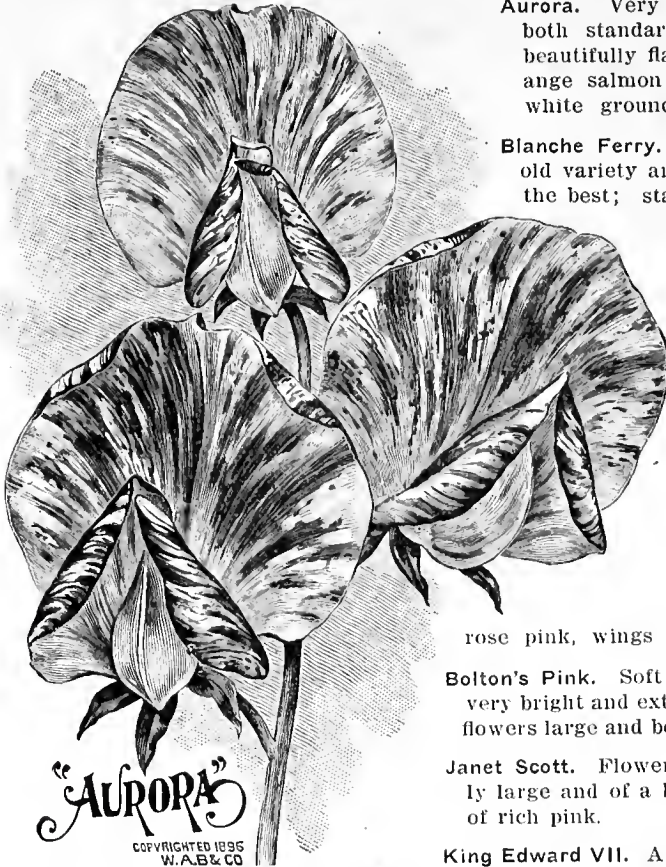

Othello. Deep glossy maroon; fine for bunching with the lighter varieties.

Prima Donna. The favorite soft clear pink; of good size, slightly hooded in form, vigorous and free blooming.

Queen Alexandria. Bright scarlet; the best of its color and does not burn in strong sunshine.

Lawbrance's Fine Mixed. A splendid mixture embracing all of the above and many other large flowered varieties of bright and pleasing shades and colors in good proportion. This is not to be compared with many of the Mixed Sweet Peas on the market which contain about half blue and purple shades and the balance of old-fashioned, small free seeding varieties, but may be depended upon to produce a rich and varied collection of all colors in proper proportion. Per pkt. 5c.; per ¼ lb., 35c.; per lb., \$1.00. Any of the above varieties, 5c. per pkt., 15c. per ounce, except where noted

The collection of 12 varieties and one packet of Lawbrance's Fine Mixed for 50c.

Aurora. Very large flowers, both standard and wings beautifully flaked with orange salmon on a creamy white ground.

Blanche Ferry. The popular old variety and still one of the best; standard bright

rose pink, wings creamy white.

Bolton's Pink. Soft orange pink; very bright and extremely showy; flowers large and boldly expanded.

Janet Scott. Flowers are unusually large and of a beautiful shade of rich pink.

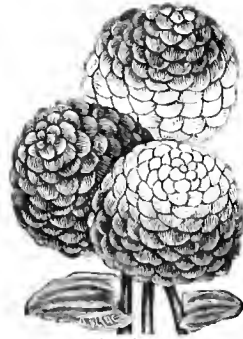

King Edward VII. A grand crimson-scarlet variety with large flowers on long stout stems.

Verbena. An indispensable bedding plant of spreading habit, and very free blooming. Our seed has been saved from the finest large flowers of brilliant colors and shades.

Pkt. 10 cts.

Zinnia. Hardy, showy annuals, free blooming and will thrive in any soil. The flowers of our mixture rival the dahlia in size and form.

Pkt. 5 cts.

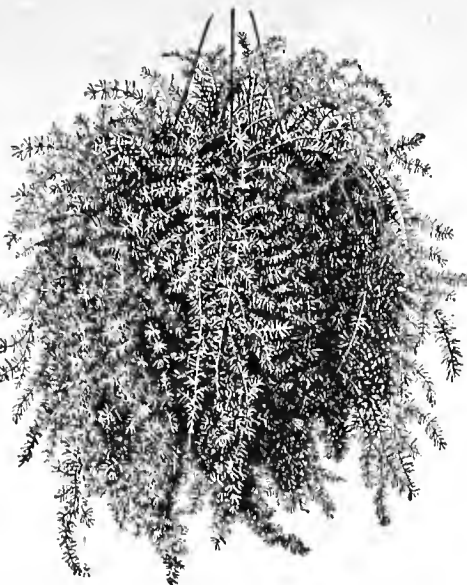

Zinnia.

GENERAL COLLECTION OF PLANTS

Asparagus plumosus nanus. One of the most distinct and effective, decorative plants grown. The leaves are bright green and finer than the most delicate lace work—much handsomer than Maiden-Hair fern.

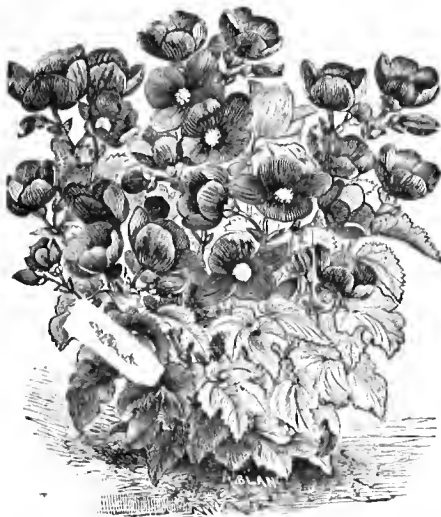

Fine plants, 15 cents to \$1.00 each.

Asparagus Sprengerii. A graceful and pretty variety for hanging baskets or decorative purposes, long drooping fronds or a rich glossy green color. 15c. each. Larger plants, 25c. to \$1.00 each.

BEGONIAS.

Tuberous Variety. Grand plants for partially shaded situations. Nothing can exceed the brilliancy and richness of their flowers. They are admir-

Tuberous Begonia.

Asparagus Sprengerii.

ably adapted to planting in window or piazza boxes on the north side of the house, where Geraniums and other plants would not do well. We have them in separate colors, white, scarlet, yellow and pink. Dry bulbs 10c. each. \$1.00 per doz., growing plants 15c. each, \$1.50 per doz.

Double Varieties. Dry bulbs 15c. each. Growing plants 25c. each.

CARNATIONS.

This, the most popular cut-flower of the day, we grow in large quantities in the best and most popular varieties. While not grown to any great extent by amateurs, they should be more generally planted. By planting strong 3-inch pot plants in the open ground in early spring they may be had in bloom from August 1st until November.

Price: Strong plants from 2 inch pots, 10c. each, \$1.00 per dozen.
Strong plants from 3 inch pots, 15c. each, \$1.50 per dozen.

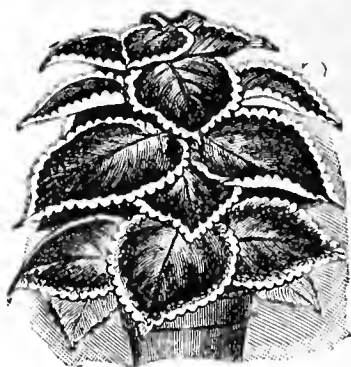

CHRYSANTHEMUMS.

We have a fine collection of this, the "Queen of Autumn," but on account of the large number of varieties, lack of space forbids us to mention them. We have one house 30 by 70 feet, devoted entirely to them in their season, and as many of the largest and finest varieties as grown for cut flowers are not suited for pot culture, it would be better to leave the selection of varieties to us, mentioning the colors desired, and whether wanted for bush plants in pots, or single stem plants for bench culture in the conservatory.

Strong plants, 10 cts. each, \$1.00 per dozen.

CANNAS.

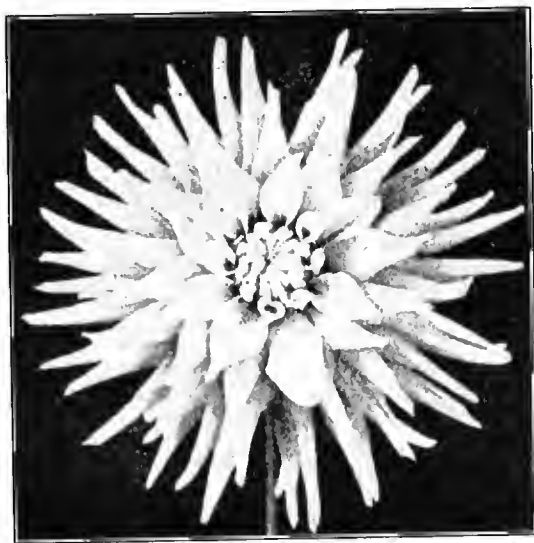

Nothing can compare with the stately beauty and rich tropical effect of a bed of these easily grown plants. We have a grand collection of the latest and best varieties, and if size of bed is given and color of foliage preferred, (either bronze or green) we can select varieties that will harmonize in color and growth. Strong growing plants, 15c. each, \$1.50 per doz.

Fancy Coleus.

COLEUS.

The well-known foliage plants of many hues and colorings, fine for foliage beds, vases, etc.

Dahlia.

Fancy Varieties.

Many combinations and blendings of color.

Bedding Varieties.

Crimson, yellow and variegated.

Price, 5c. each, 60c. per doz., \$4 per 100.

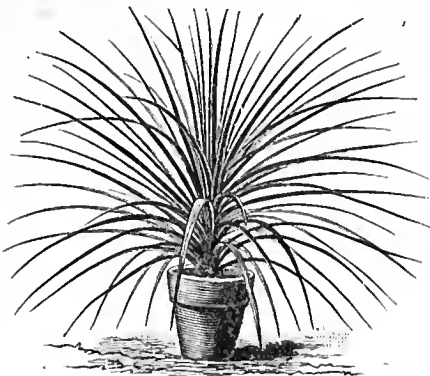

DAHLIAS.

No flower is more generally known or easier to grow than the Dahlia. There are hundreds of varieties offered each year, and we annually test the most prominent introductions, and discard all but the very best, making our collection the best in their respective colors. We

have them in all colors. Strong growing plants 15c. each, \$1.50 per doz. We are usually able to supply dormant roots of most varieties at same price as growing plants.

DRACENA.

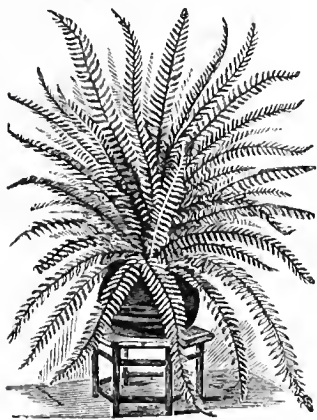

Indivisa. (Fountain Plant.) A useful decorative plant, much used for center of vases, baskets, etc. It stands full exposure to the sun and contrasts beautifully with flowering or foliage plants. 25 cts to \$3.00 each according to size.

Dracena Indivisa.

BOSTON FERNS.

A variety of exceptional merit for house culture, as it stands the dry atmosphere of ordinary dwellings and soon makes fine specimens. In well-grown plants the fronds frequently attain a length of 4 to 6 feet and arch gracefully. We grow these in large quantities and have a large stock of the different sizes at all times.

Boston Fern.

Strong plants. 15c. and 25c. each.
Large plants, 50c. to \$1.00.

Specimen plants \$1.00 to \$2.00 each.

Whitmanii or **Ostrich Plume Fern.** Of the same general habit of growth as the Boston fern, but the fronds are so finely divided as to remind one of a piece of fine lace.

Strong plants 25c. each, larger plants 50c. to \$4.00 each.

FERN DISHES.

We have at all times pans filled with an assortment of ferns and mosses, which can be used in any Fern Dish.

When ordering, please state width and

depth of dish. 35c. to \$1.50 each, according to size and quality.

FEVERFUE or BRIDAL ROSE

An old-fashioned plant but still one of the standbys for the production of summer cut-flowers; large very double, pure white, button-like flowers borne in large clusters.

5c. each, 50c. doz.

FUCHSIAS.

These old-fashioned plants are so well known they need no description. We have a good collection in single and double white, pink, purple, etc.

Price, 15c. each, \$1.50 per doz.; larger plants, 25c. each, \$2.00 per doz.

GERANIUMS.

These are probably the most satisfactory bedding plants grown, while at the same time are equally satisfactory as house plants. The great advance in form and coloring made in recent years have given us some charming varieties. Most Florists grow Geraniums in any old place, simply because they will stand a lot of neglect and grow after a fashion. We devote one whole modern house to them, besides considerable space in our other houses. While it costs considerable more to grow them in this way, our customers will find that a less number of our strong bushy plants in a bed will make a larger showing and give better satisfaction than a greater number of the weak, spindly plants usually sold as bedding Geraniums.

We have a large number of varieties, and if the purpose for which they are to be used, and the colors desired is mentioned, we can make selections that will surely please.

Single or double in any color.

Strong plants from 2½ inch pots, 10c. each, \$1.00 per doz.

Strong plants from 3 inch pots, 15c. each, \$1.50 per doz.

Strong plants from 4 inch pots, 20c. each, \$2.00 per doz.

Specimen plants, 25c. to 50c. each.

VARIEGATED GERANIUMS.

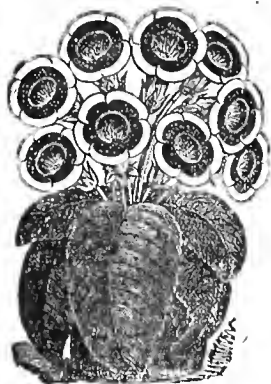

Md. Salleroi. A compact growing, silver edged variety for bordering, massing, etc., and rarely exceeding six inches in height; leaves small clear green in color, edged with pure white. 5c. each, 60c. per doz., \$4.00 per hundred.

SCENTED GERANIUMS.

Rose, Nutmeg Balm, Lemon and Pennyroyal scented varieties.

Strong plants from 2½ inch pots, 10c. each, \$1.00 per doz.

Strong plants from 4 inch pots, 20c. each, \$2.00 per doz.

Gloxinia.

GLOXINIA.

Handsome summer blooming bulbs, with rich, luxuriant foliage, and remarkably rich trumpet-shaped flowers, of the most chaste and elegant colors.

Dry bulbs. 15 cts each. \$1.50 per doz.

Started in pots, 25 cts. to 50 cts. each.

HELIOTROPES.

An old favorite of easy culture, doing equally well as bedding plants in the garden or as window plants for the house. They are delightfully fragrant and should be in every garden.

Strong plants from 2½ inch pots, 10c. each, \$1.00 per doz.

Strong plants from 3 inch pots, 15c. each, \$1.50 per doz.

Strong plants from 4 inch pots, 25c. each, \$2.00 per doz.

HYDRANGEAS.

Old favorites producing large heads of flowers, lasting on the plants for a long time. We have these in all sizes, from 25c. to \$5.00 each.

LEMON VERBENA.

A useful plant with highly scented foliage. The branches are very useful for bouquets, etc.

Small plants, 15c. each; large plants, 25c. each.

MIGNONETTE—Mammoth Flowering.

On account of the difficulty in transplanting this popular annual, we grow them in pots so they may be planted without any check whatever.

Nicely started in pots, 5c. each, 50c. per doz.

PANSIES—Giant Exhibition.

We have a fine strain of this popular plant grown from selected seed of the finest large flowered and richest colored Pansies, which for size, coloring and form cannot be excelled.

Strong plants from pots, 5c. each, 60c. per doz. Transplanted from seed bed, 35c. doz.

Kentia Palm.

PALMS.

We have a nice assortment of Palms in the varieties best suited to house culture in all sizes, from the small plant 6 to 8 inches high to the larger specimens at all prices up to \$10.00 each.

DOUBLE PETUNIAS.

Few plants equal these for bedding or house culture. We have a nice assortment in pure white and variegated.

10 cts. each, \$1.00 per doz., larger plants 15c. each, \$1.50 per doz.

ROSES.**Tea and Ever Blooming Varieties.**

We have one house 100 feet long devoted entirely to Roses and grow only such varieties as will succeed under ordinary conditions. While there are hundreds of varieties, we believe that those that are most satisfactory with us will also prove satisfactory to our customers.

We have a fine variety and can supply strong plants in white, yellow, shades of pink, red, etc. Strong plants from 2½ inch pots, 15c. each, \$1.50 per doz. From 4 inch pots, 25c. each, \$2.50 per doz.

Tea Rose.

HARDY CLIMBING ROSES.

Crimson Rambler. This new and distinct climbing variety, about which so much has been said, has fully justified itself in growth and bloom. The plant is a strong, vigorous grower, growing 8 to 10 feet in a single season; the individual flowers are about 2 inches in diameter and are borne in large pyramidal clusters of thirty to forty blossoms; the color is a rich glowing crimson.

Dorothy Perkins. A most remarkable new variety of strong vigorous growth, flowering profusely in large clusters; very fragrant and lasting; color, soft shell pink; a grand Rose in every way.

Hardy Rose.

will not be disappointed by leaving the selection of varieties to us, merely mentioning the colors desired. Price: Strong 2-year-old plants 50 cts. each, \$4.50 doz.

SALVIA OR SCARLET SAGE.

This grand bedding plant will keep the garden bright with the brilliant scarlet flowers until late in autumn. It is also useful as a pot plant or in window boxes, and as a cut flower is useful to give color.

Price: 10 cts. each, \$1 per doz. Larger plants, 15c. each, \$1.50 per doz.

HARDY AND HYBRID PERPETUAL ROSES.

Many of the varieties of Roses offered by firms farther south as perfectly hardy are tender in this climate and almost sure to kill to the ground even with the best of protection, which all Roses should have in this climate. As many of the best varieties are increased only by grafting on strong growing root stocks, care should be taken to have them planted deep, so that the part where the branches join the main stem will be three inches below the surface of the soil. All hardy Roses should be severely pruned before planting and also each year before the growth starts in the spring, removing all weak growth and cutting back all strong canes at least one half. We list only the varieties which are hardest and best in this section and among these will be found some of the best that can be grown anywhere. Customers

Salvia.

SMILAX.

A graceful climbing plant, with glossy green foliage, much used for bouquets, table and room decoration, etc. 15c. each.

VERBENAS.

(Mammoth Varieties.)

One of the most showy plants for the garden, blooming incessantly all through the season. Our collection embraces all shades and colors known to the Verbena. Plants from pots, 5c. each, 60c. per doz. Transplanted, 35c. per doz.

VINCA MAJOR.

(Variegated.)

One of the finest trailing plants in cultivation for baskets, vases, etc. The leaves are green broadly margined with pure white. Flowers blue. Small plants, 10c. each.

Large plants, with long vines, 25c. to 50c. each.

ANNUAL PLANTS**TRANSPLANTED FROM SEED BEDS.**

Asters. Comet, Carlson's, Victoria, Mikado, Branching, Purity, Daybreak, etc., in separate colors or mixed, 25c. doz.

Antirrhinum. (Snapdragon.) Mixed colors, 35c. doz.

Alyssum. (Sweet Alyssum.) White, 35c. per doz.

Balsam. Double-flowered, mixed colors, 35c. doz.

Castor Oil Plant. (Ricinus.) Best varieties, 10c. each, \$1 per doz.

Cosmos. Large flowering, mixed colors, 35c. per doz.

Dianthus. (Diadem Pink.) Single mixed, 25c. per doz. Double mixed 25c. per doz.

Gaillardia. Double, mixed colors, 35c. per doz.

Lobelia. Compacta, 35c. a doz. From pots, 50c. doz.

Marigold. (Double African.) Tall growing, 25c. per doz.

Marigold. (Double French.) Dwarf-growing, 25c. per doz.

Mignonette. Flowering. From pots, 50c. per doz.

Nasturtium. Tall or dwarf, 25c. per doz. From pots, 50c. per doz.

Pansy. An excellent strain. 35c. per doz. From pots, 60c. per doz.

Petunia. Striped, mottled and flaked. 35c. per doz.

Petunia. (Giants of California.) 50c. per doz.

Phlox Drummondii. Large flowering, mixed colors. 25c. per doz.

Scabiosa. (Sweet Scabious.) Double mixed, 35c. per doz.

Stocks. (Ten Weeks.) Double mixed colors. From pots, 50c. per doz.

Verbena. Mammoth varieties. Mixed colors, 35c. per doz. From pots, 60c. per doz.

Zinnia. Large flowering, double mixed, 35c. per doz.

All Annual Plants, except those from pots, will be safely sent by mail, postpaid, when so desired.

SUMMER VINES AND CLIMBERS

Cobaea Scandens. A rapid growing climber, with handsome bell-shaped flowers. 10c. each, \$1.00 per doz.

German Ivy. A rapid growing vine with glossy green leaves; fine for baskets, vases, etc. 10c. each, \$1.00 per doz.

English Ivy. Small plants, 15c. each. Large plants, 25c. to 50c. each.

Smilax. A graceful climbing plant with glossy green foliage, much used for bouquets, table and room decorations, etc., 15c. each.

BULBS FOR SPRING PLANTING

GLADIOLUS.

The most attractive and best known of all summer-flowering bulbs, the wonderful improvements made in size, color and general beauty in the past few years are amazing, when compared with the varieties of a few years ago. We have a fine collection of the best and newest named varieties in all colors. 10c. each, \$1.00 per doz.

Groff's Hybrids. This magnificent strain has a world-wide reputation and is the result of many years patient work by a careful hybridizer. We offer these in two grades.

Gold Medal Hybrids. The finest and best of Mr. GROFF'S ereations. It is prepared with the view of providing the amateur with the best collection of the modern Gladiolus. Finest mixed, 10c. each, \$1.00 per doz.

Silver Trophy Strain This selection is from the earlier hybrids of Mr. Groff and while not as fine as the preceding, so great is the diversity of color that there is practically no risk of getting two alike. 5c. each; 50c. per doz.

TUBEROSES.

A beautiful and delightfully fragrant summer flowering bulb, and very easily grown. For early blooming they may be started in the hot-bed or the house in March and for succession of flowers may be planted every two weeks until July, or they may be planted in the open ground in June.

Excelsior Pearl. Beautiful spikes of double pure white fragrant flowers.

Fine large bulbs, 5c. each, 3 for 10c., 35c. per doz.

Started in pots, 15c. each, \$1.50 per doz.

HARDY LILIES.

Plant in the open ground not less than 5 inches deep, the larger kinds deeper. The beds should be underdrained if inclined to be wet. If the soil is heavy or compact, sand or coal ashes should be well worked in the soil to lighten it. Although all are hardy, the beds should be well covered with leaves or manure to the depth of 8 or 10 inches, in the fall.

Auratum. (Gold Banded Lily.) One of the most fragrant and beautiful Lilies grown. The flowers are of the largest size, measuring nearly a foot across, of a pure white, with crimson spots, while a band of golden yellow runs through each petal. Strong bulbs, 35c. each.

Candidum. (St. Joseph's Lily.) Pure white; very fragrant. Should be planted in September. 10c. each, \$1.00 per doz.

Speciosum, or Lancifolium. The most popular Lily grown; of easy culture and producing flowers of delicate colors. 35c. each.

Speciosum Album. Pure white, 35c. each.

Speciosum Rubrum. White ground, spotted red, with a band of crimson on each petal. 25c. each.

HARDY HERBACEOUS PLANTS

ACHILLEA, THE PEARL.

A profuse and continues blooming old garden favorite, with pure white double daisy-like flowers on long stems. Valuable for cutting. Strong clumps. 20cts. each.

ANEMONE JAPONICA.

One of the finest and most beautiful hardy plants. A single plant in moderately rich soil will grow to a height of three feet and two feet in diameter, producing hundreds of their well-formed flowers, commencing in August and continuing until cut down by the heavy frosts. The roots should be covered with leaves or other material during winter.

Queen Charlotte. A grand acquisition. The plants are of a strong robust growth, more vigorous than the older varieties, and commence to bloom much earlier. The flowers are large, two or three inches in diameter, and of a beautiful satin rose color.

Whirlwind. A semi-double variety; pure white. 25c. each.

CAMPANULA (Bellflower).

Media. (Canterbury Bells.) An old-time favorite, completely covered during July with large bells of various colors. Strong blooming plants, 20 cts. each, \$2.00 per doz.

COREOPSIS LANCEOLATA.

One of the best hardy plants. Large golden yellow flowers on long slender stems, produced in abundance all through the season. Very hardy and will thrive in any situation.

Strong clumps, 20c. each.

HARDY LARKSPUR.

Stately and attractive plants growing to a height of 4 to 6 feet. The flowers are produced in long spikes and come in all the shades of blue and purple. We have a fine collection grown from seed from one of the finest European collections. 25c. each.

LAWRENCE'S FINE DOUBLE HOLLYHOCK.

Our selections of this most effective old hardy garden plant are unsurpassed. For many years this has been a specialty with us, annually buying seed from the best growers in this and European countries until we now have a collection that is perfection in form, large size and handsome colorings. We do not offer pot plants, but strong field grown roots that will bloom the first season. We have them in separate colors. White, yellow, pink, crimson and variegated. 15c. each, \$1.50 per doz.

GERMAN IRIS.

This interesting group of hardy plants is remarkable for their quaintly marked and curiously constructed flowers. They are of the easiest culture and may be planted in low wet places. They flower abundantly in June. We have a fine collection in many different varieties. 20 cts. each, \$2.00 per doz.

PAEONIES.**Herbaceous Varieties.**

This noble flower, so brilliant in color and perfection of bloom, almost rivals the rose, increasing in beauty and form from year to year. The plant is of good form and outline, as hardy as adandelion and as sure to bloom. I have a good bed of them in the new and old varieties, which are a beautiful sight when in bloom. The cut-blooms are very popular, and sell at 50 cts. to \$1.00 per doz. Many of them are fragrant.

Strong plants, 35 cts. each,
\$3 50 per dozen.

PHLOX.**(Flame Flower.)**

This, like the Paeony, is a flower for the millions—something everybody can grow—and should be in every garden. It is of stately growth and vigorous habit. The flowers are of fine form and colors, and are produced in profusion during a long season. We have a first-class collection which consists of only varieties of distinct and decided colors. Our plants are strong field grown, and not to be compared with the small greenhouse propagated plants, usually sent out.

Price 20 cts. each, \$2.00 per
doz.

**Hardy Phlox.**

NEW GIANT HARDY PRIMROSE.

A true giant variety of the old-fashioned Hardy English Primrose, being three times the size of the old variety, the average size of the individual florets being over an inch in diameter. It is perfectly hardy, grows about one foot in height and begins to bloom earlier and continues in bloom longer than any variety of the same family. It has the delicate yellow color and the fragrance of the old English Primrose. Strong plants 20c. each.

TRITOMA.

Also called Red Rot Poker Plant. This is a splendid garden plant, having large spikes of flowers on 3 to 4 foot stems. The flowers are brilliant orange scarlet in color. The plants should be dug in late fall and wintered in a cool cellar. 35c. each.

HARDY VINES AND CLIMBERS**AMPELOPSIS.**

Quinquefolia. (Virginia Creeper.) One of the finest vines for covering walls, trunks of trees or any unsightly object. The foliage becomes rich crimson in autumn.

Strong plants, 20c. each, \$1.50 per doz.

***Veitchii.* (Boston Ivy.)**

One of the handsomest clinging vines in cultivation. The leaves are three lobed and overlap one another, forming a dense sheet of green, changing to a rich crimson in autumn. The plant is tender when young and should be protected the first two or three years. Strong plants, 35c. each.

CLEMATIS JACKMANII.

One of the most beautiful and satisfactory climbing plants grown; an abundant and successive bloomer and a rapid grower, with large violet blue flowers. Strong plants 50c. each.

Clematis Jackmanii.

CLEMATIS PANICULATA.

A valuable and rapid growing variety entirely distinct from the preceding. The foliage is deep green and glossy, and the small pure white, star-shaped flowers appear in late August in such profusion as to completely cover the plant. Strong plants 50c. each.

DUTCHMAN'S PIPE VINE. (Aristolochia Sipho.)

One of the handsomest and most satisfactory vines for this climate, for covering verandas, trellises, fences, etc. There is nothing to equal it. After becoming established the vines grow from 10 to 20 feet in a single season. They are remarkably free from insect pests and are perfectly hardy without protection; the leaves are heart shaped, deep green in color and are frequently 10 to 12 inches in diameter. The flowers are of a peculiar greenish brown color and resemble in shape a crooked stem pipe.

Strong plants, 60c. each.

Strong 2-year-old plants, 75c. each.

Strong 3-year-old plants, \$1.00 each.

HARDY ORNAMENTAL SHRUBS

Berberis Thunbergii. (Barberry.) A beautiful dwarf variety from Japan. The foliage is small and assumes a great variety and beautiful tints of coloring in the autumn. Very desirable for grouping and a grand hedge plant. 35c. each.

Hydrangea paniculata grandiflora.

HYDRANGEA PANICULATA GRANDIFLORA.

This is the most popular hardy shrub of the day, and one of the easiest to grow. It does well in any and all soils, but the flowers will be larger and finer is given good, rich soil. The flowers are in immense panicles, creamy white when first opening, changing to pure white when fully open then turning to pink and bronze as the flower grows older. It blooms in August, and remains in bloom until heavy frosts. At least half of the previous year's growth should be cut back each spring, as the flowers are much larger and finer when treated in this manner. We have a fine stock of extra strong plants at 50c. each, \$4.00 per doz.; smaller plants, 25c. and 35c. each, \$2.50 and \$3.50 per doz.

LILAC.**Syringa Vulgaris.**

Vulgaris. (Common Lilac.) Bluish purple flowers. 35c.

Persica. (Persian Lilac.) An excellent species, with small foliage, growing 4 to 6 feet high. Large panicles of purple flowers freely produced. 35c. each.

Purple Fringe or Smoke Tree. A desirable shrub; much admired for its curious fringe like flowers, that cover the whole plant, becoming like a cloud of smoke later in the season. 35c. each.

Syringa or Mock Orange. A desirable shrub, of vigorous habit, with fine rich green foliage and beautiful white fragrant flowers, in dense clusters, in such profusion as to bear the branches down when in flower in June. 35c. each.

SPIRAEA.**(Meadow Sweet.)**

Fine medium shaped shrubs of easy culture and very hardy.

Van Houttei. Undoubtedly the finest variety in cultivation. Flowers pure white, in dense clusters the whole length of the branches which are often weighed to the ground with the weight of flowers. 35c. each.

VEGETABLE PLANTS

We have a large amount of space devoted to growing Vegetable Plants in such varieties as are of the greatest merit and best adapted for planting for the home garden or market. Much time may be saved in getting plants well established and ready to grow as soon as the ground is in proper condition to plant. We give careful attention to packing for shipment, in order to insure safe arrival and low rates.

Cabbage Plants. Early Winningstadt, Early Jersey Wakefield, Succession, Flat Dutch, Danish Ball Head, Short Stem Drumhead, Red Dutch, etc. Early varieties transplanted, 10c. per doz., 50c. per hundred. After June 1st, all varieties 35c. per hundred, \$3.00 per thousand.

Cauliflower. Early Snowball, Dwarf Erfurt, etc. 10c. per doz., 75c. per hundred.

Celery Plants. White Plume, Golden Self Blanching, Winter Queen, Giant Pascal. Ready after May 20th.

Prices of Celery Plants. (By express only, at Buyer's expense.)

Plants from Seed beds, \$3.50 per 1,000; 50c. per 100.

Transplanted Plants, \$6.00 per 1,000; 75c. per 100.

The superiority of Transplanted Plants is seen in the dense mass of fibrous roots they possess, and on this account they are much easier to make grow and more certain to do well.

Chives. An onion-like plant, the leaves of which are much used in making salads, etc.; perfectly hardy. Strong clumps, 20c. each.

Egg Plants. New York Improved, Early Dwarf, Purple, etc. Large plants grown in pots, 15c. each, \$1.50 per dozen. Transplanted 50c. per dozen.

Mint. The well-known herb, the leaves of which are so much used for meat sauce. Clumps 20c. each.

Peppers. Bull Nose, Long Red, etc. Transplanted, 25c. per doz., \$1.50 per 100.

Parsley Plants. Moss Curled, 25c. per doz.

Tomato Plants. Livingston's Beauty, Spark's Earliana, Early Jewell, Ponderosa, Red Rock, Globe, etc. Transplanted, 35c. per doz.; \$2.50 per hundred. Large strong plants in pots or individual boxes, 60c. per doz., \$4.50 per hundred. The latter are large strong plants which can be handled or planted without disturbing the roots.

Rhubarb. (Pieplant.) **Linneaus.** The best variety, very tender, juicy and of superior flavor. Strong roots, 20c. each, \$2.00 per doz.

ASPARAGUS ROOTS.

Conover's Colossal. The standard variety. The stalks are very large, tender and succulent; very quick growing and free from woody fibre.

Strong plants, 1 year old roots, 75c. per 100.

Strong plants, 2 year old roots, \$1.50 per 100.

ALL VEGETABLE PLANTS SHIPPED BY EXPRESS UNLESS OTHERWISE ADVISED.

LAWRENCE'S LAWN GRASS SEED.

There is no other thing which at so small an outlay can add greater value to the home than a well-kept lawn. When a lawn is once established from good seed it will last for years, but good results can only be obtained by using a proper combination of the most suitable grasses adapted to this climate. Our mixture embraces such varieties as are perfectly hardy, lasting and of that rich green color so necessary in a fine lawn. The seed germinates quickly, roots deep, and makes a thick permanent sod in a short time. We use only re-cleaned seed, free from chaff and weed seeds, therefore requiring less seed than most others. One quart will sow 300 square feet.

Price per quart, 20c.; per peck, \$1.00; per bushel of 20 lbs., \$5.00.

If by mail, add 5c. per quart for postage.

LAWN FERTILIZER.

A splendid Fertilizer for lawns, made by the celebrated Listers Agricultural Chemical Works. This is not a stimulant but a complete fertilizer containing all of the elements necessary for the healthy and luxuriant growth of all grasses. It is equally valuable for Ferns, Flowering plants and Vegetables. Being quick in action, the effect can be noticed in a very short time by the rich green coloring and that velvety appearance so much sought after. Its superiority over stable manure can scarcely be estimated, as the latter, in addition to its unsightly appearance, always contains weeds and other undesirable seeds.

5-lb. bag for about 200 square feet 25c.

10-lb. bag for about 400 square feet 50c.

25-lb. bag for about 1000 square feet \$1.00

100-lb. bag feet \$2.50

INSECTICIDES.**SULPHO-TOBACCO SOAP****A Wonderful and Inexpensive Insecticide**

Sulpho-Tobacco Soap is a powerful agent for the destruction of all bugs and insects. One or two applications will rid plants of the pests. Full directions with each cake.

Destroys cabbage-, squash- and potato-bugs, currant-worms, lice, green-fly, mealy bug, red spider, etc. Sure death to all plant insects indoors and out-of-doors. Of special value for spraying shrubs, fruit-trees and vines.

3-oz. Cake makes $1\frac{1}{2}$ gallons prepared solution. 10 cents. Mailed, postpaid, for 13 cents.

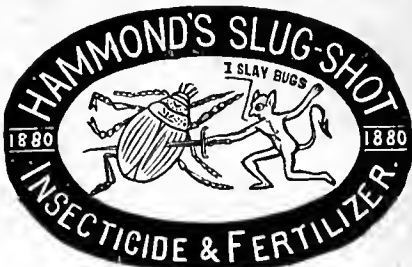

8-oz. Cake makes 4 gallons prepared solution. 20 cents. Mailed, postpaid, for 28 cents.

10-lb. Cake makes 80 gallons prepared solution. By Express, \$3.00.

Free with every order, "The Window Garden," a booklet by Eben E. Rexford, giving valuable information on the cultivation of plants and the extermination of insects.

Tobacco Dust. For destroying green and black flies, squash bugs, etc.; should be dusted on foliage, 10 cts. per lb., 10-lb. pkg. 60 cts.

Hammond's Slug Shot. An insecticide of great value, in the form of a fine powder. Very effective in destroying potato bugs, cut worms, squash bugs, cabbage worms, etc. Full and explicit directions for use on each package. It is entirely harmless to man or animal, but very efficient as an insect destroyer. 5 lb. package 25c.; 10 lb. package 50c.
